DYXnet Group and Administrative Committee of Qingdao Development Zone Jointly Invest in Establishment of Contact Centre and Cloud Computing Platform

2012-08-13 16:04

Being the First Batch of Outsourcing Projects in Qingdao Development Zone

HONG KONG, Aug. 13, 2012 /PRNewswire-Asia/ -- DYXnet Group, the leading Greater China Information and Communications Technology (ICT) service provider, announced to join hands with Administrative Committee of Qingdao Economic & Technological Development Zone (Administrative Committee of Qingdao Development Zone) to set up a contact centre and cloud computing platform in Qingdao Development Zone. Based on the principle of complementary advantages to create a win-win situation, both parties reached an agreement and signed a letter of intent on August 11, 2012, marking their same direction towards this cooperation. DYXnet Group is the only representative of the outsourcing service enterprises in Qingdao Development Zone to join the signing ceremony. The project will be commenced in Qingdao Guanggu Software Park.

Qingdao Development Zone was one of the first 14 national economic and technological development zones in Mainland China. After the development of over 20 years, it has become a new, modern city with national development zone, bonded port, national hi-tech industrial development zone, export processing zone and provincial resort area. Qingdao is also named as one of the "Top 10 Development Zones with High Investment Potential".

Mr. Lap Man, Founder & CEO of DYXnet Group, stated: "I am honored to get this opportunity to cooperate with the Administrative Committee of Qingdao Development Zone, joining hands to invest in the establishment of contact centre and cloud computing platform projects in Qingdao Development Zone. According to the Comprehensive Evaluation Index of Investment Environment, Qingdao Development Zone has been ranked the top 5 of over 55 participating countries and development zones for 7 consecutive years. It was also awarded as 'Mainland China's Best Comprehensive Strength Development Zone of 11th Five-Year Plan', showing its enormous potential. Situated between Beijing and Shanghai, Qingdao enjoys a superior geographic advantage to support our contact centre and cloud computing projects. At the same time, we are backed by the policy and coordination of Qingdao Development Zone, making this cooperation a good example for other future plans."

To conduct a comprehensive assessment of the project, leaders from Qingdao Development Zone have visited DYXnet Group's headquarters in Hong Kong in July this year. After the inspection, Mr. Zhang Dayong, Secretary of Qingdao Development Zone and Director of the Administrative Committee, highly appreciated the ability of DYXnet Group and said: "DYXnet Group has rich resources, well-established experience of service outsourcing, as well as core competitiveness in building cloud computing platform, which are critical for the economic development of the software and information industry in Qingdao Development Zone. During the visit, we realized that DYXnet Group is an enterprise full of energy; therefore, we believe, the Group will help drive the local economic development after entering the Zone."
