DYXnet Group Honored at Global Business Excellence Awards for Outstanding MPLS VPN Service

Recognising its excellence in providing outstanding network performance and customer service

HONG KONG, Dec. 30, 2013 /PRNewswire/ -- DYXnet Group, Greater China's ICT (Information and Communication Technology) service provider, today announced it was honoured at the Global Business Excellence Awards 2013 for Outstanding MPLS VPN Service. The award is marketed and administered by Awards Intelligence, the UK's largest provider of business awards and personal honours support services, news and information to progressive organizations and accomplished individuals. Judged by an independent panel from different sectors, DYXnet Group was singled out for its capability of showing its demonstrable success measured by its financial results and its benefits for the customers, employees, community and investors.

Commenting on DYXnet Group, the winner in the Outstanding MPLS VPN Service, the chairman of the judges said, "In supporting the massive growth spurt in the Greater China region, DYXnet Group, as Greater China's ICT service provider, is a true innovator and the first to offer multiprotocol label switching virtual private network (MPLS VPN) services, which provide highly flexible infrastructure to support cross-border IP connections at low cost, benefitting the companies of all sizes to enjoy such a convenient way of communication and data transfer. Founded in 1999, the company is now a leader in its field with more than 10,000 MPLS VPN client sites. The fact that a third of enterprises surveyed in Greater China chose DYXnet as their primary IP VPN provider says it all."

Mr. Lap Man, Founder & CEO of DYXnet Group, stated, "I am really excited to learn that our MPLS VPN service won Global Business Excellence Awards this year, marking a prominent year for our MPLS VPN services. Apart from obtaining this award, we are honoured to upgrade our IP VPN licenses with coverage from 20 provinces and cities to nationwide granted by the Ministry of Industry and Information Technology of the People's Republic of China recently. In addition, we just completed organizing a series of cocktail parties in the Greater China region this year, which covered Shanghai, Hong Kong, Beijing and Taipei on November 14, November 26, December 4 and December 13 respectively, to celebrate the successful deployment of our 10,000 MPLS VPN client sites. Looking forward, we will continue to provide the most advanced technology for our customers while closely working with them to tailor the best solution based on their needs."

The Global Business Excellence Awards is an independent awards program not affiliated to any magazine or newspaper, aiming to recognise and reward business excellence across all sectors, private, public and charity. Participants are required to submit a written report covering details of the selected service, its market recognition, financial figures and projection of future market share, etc. to explain why it can stand out from the rest. Entrants compete against organizations based in the same region/country.
